

NOTIFICATION

Ref: G.O.(Ms)No.333/2022/HEDN dt 04.0702022

Admission to M.Tech (Regular) Courses 2022-23

The second allotment of MCAP 2022 was published and the last date of joining at the allotted institution is 3PM on 17.10.2022. Online spot allotment will be done for the vacancies existing after 17.10.2022. Option registration is mandatory for candidates (including those withheld in the rank list) to participate in the spot allotment. The option registration can be done through the portal from 15.10.2022 to 17.10.2022. The candidates can keep a copy of the confirmation page of registered options for their records. The candidates should not send the option confirmation page to the directorate of technical education by email/ postal mail. The candidates who are withheld in the rank list need to upload the relevant documents before 12 noon on 17.10.2022 to clear the withheld status. Even though all candidates can register their options, those who have not cleared the withheld status will not be considered for the spot allotment.

The candidates who have already taken admission in institutions will have to relinquish their seats if they participate in the spot allotment and are allotted a new seat.

Important Note:-

The options not included in the online option registration will not be considered for allotment. The options registered for spot allotment will be considered as the higher option and if the candidate is allotted a seat in the spot allotment, the existing admission stands cancelled and the candidate has to join the newly allotted institution/course. Hence, at most care has to be taken by the candidates while filling the options for the spot allotment as they will have to relinquish their present admission if they participate in the spot allotment and are allotted a new allotment.
